Pitch Presentations (III) - Faculty of Chemistry / Enric Casassas, Aula Magna (11:30 - 11:45)

time	[id] title	presenter
11:30	[67] Emergence of a vortex lattice in anisotropic active flow under confinement	BANTYSH, Olga
11:33	[68] Dynamics of photoactive colloids inside spherical microreactors	Mr MARTÍNEZ BUSTOS, Anthony Jesús
11:36	[69] Ground State Degeneracy in Attractive Artificial Colloidal Ice with Frustrated Geometry	BAILLOU, renaud
11:39	[70] Universal Scaling of Clustering Instability for Interacting Active Brownian Particles	KÜRSTEN, Rüdiger
11:42	[66] Integrating AFM in Nanomedicine: Biophysical Mapping for Diagnostics and Drug Delivery	CALO, Annalisa CANTERO NIETO, Beatriz
