Coffee Break / Poster Session (III) - Atrium Solar (11:45 - 12:15)

time	[id] title	presenter
11:45	[15] Squirmers at a fluid-fluid interface: anisotropic, compressible hydrodynamic interactions	CHAMORRO-BURGOS, Miguel
11:45	[21] METALBIO: METALES E IONES METÁLICOS EN SISTEMAS BIOLÓGICOS	DÍAZ GARCÍA, Diana
11:45	[25] Active Brownian Particles in Motility Landscapes	GARCÉS ORTIZ, Adrià
11:45	[32] Universal Scaling of Clustering Instability for Interacting Active Brownian Particles	KÜRSTEN, Rüdiger
11:45	[14] Dissipative self assembly of FtsZ over confined lipid bilayers	VERGÉS VILARRUBIA, Marc
11:45	[19] Dynamics of photoactive colloids inside spherical microreactors	Mr MARTÍNEZ BUSTOS, Anthony Jesús
11:45	[10] Emergence of a vortex lattice in anisotropic active flow under confinement	BANTYSH, Olga
11:45	[22] Ground State Degeneracy in Attractive Artificial Colloidal Ice with Frustrated Geometry	BAILLOU, renaud
11:45	[37] Exploring microfluidics for the microfabrication of blood clots	HERRERA RESTREPO, Ramon Santiago
