

2nd Symposium on Active nano/microsystems in the Spanish context

Friday, 15 May 2026

Invited Talks (IV) - Faculty of Chemistry / Enric Casassas, Aula Magna (09:00 - 11:00)

time	[id] title	presenter
09:00	[87] From Molecular Response to Programmable Motion: Bio-Inspired 4D Micro-Structures	FLOREA, Larisa
09:30	[90] Hydrogels for T-cell cancer therapy: a case of active wetting?	FARAUDO, Jordi
10:00	[88] Non-equilibrium control of dissipative DNA-based systems and porous supramolecular materials	SORRENTI, Alessandro
10:30	[72] Theory of self-chemophoresis	DOMÍNGUEZ, Alvaro
