

# 2nd Symposium on Active nano/microsystems in the Spanish context

## Friday, 15 May 2026

### Pitch Presentations (III) - Faculty of Chemistry / Enric Casassas, Aula Magna (11:00 - 11:15)

| time  | [id] title                                                                             | presenter           |
|-------|----------------------------------------------------------------------------------------|---------------------|
| 11:00 | [98] Trapping and Compressing Colloidal Quasi-Particles                                | TORRES ANDRÉS, Joel |
| 11:05 | [84] Universal transport of active colloids with sensory delay in motility landscapes  | GARCÉS ORTIZ, Adrià |
| 11:10 | [121] From Nucleation to Architecture: Shaping Single Crystals at the Millimeter Scale | NGUYEN, Thao        |
